Topic: Trauma Informed Practice

Presenter: Kim Barthel is a world-renowned teacher and occupational therapist, actively supporting multi-disciplinary function and healing in many cultures internationally. Kim's specialties include Attachment, Sensory Processing Intervention, Mental Health and Neuroscience. www.kimbarthel.ca

Description: This presentation will provide practitioners with the connection and neurological interplay between attachment, developmental trauma and sensory processing issues. Participants will develop an elementary understanding of the use of relational attunement as a regulatory influence that supports and stabilizes the arousal and sensory processing systems as treatment for trauma.

3. **Next meeting:** To be scheduled
